

Website-in-a-day
for Business Owners!

fr **\$800**

for a limited period only!

SIGN UP for a hands-on setup of your business website with guidance on planning and managing routine online-offline transactions and updates, with optional e-commerce capability!

Using our *Simple Web Build* approach:

- Discover different ways a website can be used to enhance your business
- Work out how to communicate your brand and benefits to your market
- Express your business in a website through effective copy and visuals

We help you setup a web infrastructure with a modern site layout, and work with you to position your key business-critical pages* using WordPress, one of the most powerful blogging and website content management systems (CMS) today. Learn to maintain and update your website along the way!

What You Need To Start

- Current business profile (questionnaire)
- Basic computer knowledge & own laptop
- Credit card for web hosting & domain registration fees (not included in price)

*Up to a maximum of 5 pages. For businesses with existing websites of more than 5 pages, we offer additional content migration services on a per page charge.

Designed for

- ✓ Existing businesses with no websites
- ✓ Businesses seeking to upgrade an outdated website

Are you struggling with a lack of in-house resources to plan and manage your IT and digital needs as a business?

Tap on our consultants for a day and get a new website that works to complement & boost your business!
